Northwest Washington Electrical Industry J.A.T.C.

Policy for the Supervision of Apprentices
Adopted at the September 15, 2008 Meeting of the JATC

The Committee has established the following policy regarding the supervision of apprentices, in addition to the provisions of Section VI. Ratio of Apprentices to Journey Level Workers of the Standards of Apprenticeship:

Each apprentice should be assigned to a specific journey level worker, so that they know who to go to if they have a question or concern.

Only working journey level workers are eligible to supervise apprentices. Superintendents, General Foremen and non-working Foremen (as defined by the CBA) are not eligible to supervise apprentices and do not count towards the ratio of apprentices to journey level workers on a jobsite.
